

Moving Toward a Sustainable California: Exploring Livability, Accessibility, & Prosperity

Client

California Department of Transportation
(Caltrans), UC Berkeley's Transportation
Sustainability Research Center (TSRC)

Facts

Period	2018
Project Country	United States

For California Department of Transportation (Caltrans) and the UC Berkeley's Transportation Sustainability Research Center (TSRC), Glen Weisbrod of EBP (formerly EDR Group) was an invited speaker at a 2016 workshop of national experts to discuss options for transportation performance metrics that spanned the three areas of Livability, Accessibility & Prosperity.

Mr. Weisbrod presented options for prosperity performance measures and discussed their interaction and correlation with livability and accessibility measures. He also co-lead discussions with Caltrans staff on these interactions:

- 1. Workshop Summary: Moving Toward a Sustainable California
- 2. Weisbrod presentation: Economic Prosperity Impact Metrics for Transportation Project Scoring
